EDUCATION

Georgia Institute of Technology	Starting Fall 2026
<i>Master of Science in Computer Science, Human-Computer Interaction Specialization</i>	<i>Admitted</i>
Western Governors University	Jan. 2026
<i>Bachelor of Science in Computer Science</i>	
University of California, Merced	May 2025
<i>Bachelor of Arts in Biology</i>	<i>GPA: 3.7</i>

PROJECTS

Open Source San Jose Homepage Redesign	Live Demo
<i>UI/UX Design Project</i>	
– Redesigned the homepage experience for a nonprofit organization, improving visual hierarchy, content organization, and call-to-action placement. – Evaluated usability issues in the existing site and proposed design solutions to improve navigation, readability, and user engagement. – Created responsive interface concepts emphasizing accessibility, clear information architecture, and volunteer conversion goals.	
Personal Profile Platform Feature Design	Live Demo
<i>UI/UX and Front-End Project</i>	
– Designed and developed a responsive profile platform inspired by modern profile-link applications using HTML, CSS, and JavaScript. – Implemented interactive customization features while prioritizing usability, responsiveness, and clear information hierarchy. – Analyzed existing profile-link platforms to understand user needs, navigation patterns, customization flows, and engagement opportunities.	
Rainbow Lab Interactive Design Tool	Live Demo
<i>UI/UX and Front-End Project</i>	
– Built an interactive color exploration application using HTML, CSS, JavaScript, and canvas-based interface elements. – Implemented event-driven user interactions, dynamic color outputs, and palette generation features through iterative development. – Applied responsive design principles, visual hierarchy, and usability-focused thinking while refining functionality and user experience.	

EXPERIENCE

IT Asset Management Coordinator	Mar. 2026 – Jun. 2026
<i>ComputerCare</i>	<i>Stockton, CA</i>
– Use NetSuite, ShipJunction, FedEx Ship Manager, and Jira to process device workflows, verify order details, and maintain accurate records across operational systems. – Troubleshoot routine process issues by reviewing work orders, checking system records, resolving discrepancies, and documenting outcomes clearly. – Coordinate standard and exception-based workflows requiring attention to detail, clear communication, and consistent follow-through in a team environment.	
People Analytics Extern	Aug. 2025 – Oct. 2025
<i>Amazon Fulfillment Center Operational Strategy & People Analytics Externship</i>	<i>Remote</i>
– Analyzed structured and unstructured employee feedback using Python and AI-assisted workflows to identify recurring user pain points, workflow issues, and operational patterns. – Synthesized findings into clear recommendations, strengthening analytical problem solving, technical communication, and user-focused thinking.	

SKILLS
